

# 7.2 Rib

EXPOSED FASTENER WALL PANELS

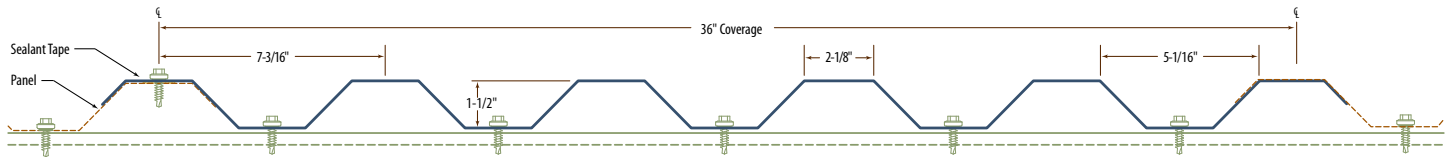

The 7.2 Rib wall panel features a symmetrical rib profile that creates a strong shadow effect, making it an excellent choice for contemporary design applications.

7.2 Rib is an exposed fastener metal wall panel that is suitable for horizontal and vertical applications, and is available in a wide variety of materials and colors.

7.2 Rib wall panels are factory fabricated to IMETCO's legendary standard of quality, and backed by unparalleled service and support.

## Design Characteristics

- 36-inch coverage width
- Trapezoidal style, longitudinal ribs
- Ribs are 1½-inches deep, spaced 7.2 inches o.c.
- Use horizontally or vertically
- Standard lengths: 6' to 45'
- Foam closures available

## Available Materials

- Steel: 20, 22 and 24 gauge
- Aluminum: .032", .040" and .050"

## Testing and Approvals

- ASTM E 1680 air infiltration
- ASTM E 1646 water infiltration
- UL 90 wind uplift

## Warranties

- 20-year finish warranty
